

Kestra Medical Technologies Named a 2026 USA TODAY Top Workplaces Award Winner

April 9, 2026

KIRKLAND, Wash., April 09, 2026 (GLOBE NEWSWIRE) -- Kestra Medical Technologies, Ltd. (Nasdaq: KMTS), a leading wearable medical device and digital healthcare company, today announced it has been named a 2026 USA TODAY Top Workplaces award winner.

"Being named a USA TODAY Top Workplace highlights a team dedicated to a meaningful purpose and mission with a commitment to making a real difference for patients and clinicians," said Brian Webster, President and CEO of Kestra Medical Technologies. "The opportunity to collaborate with people who share that responsibility creates strong alignment, defines our culture, and empowers our teams to work together to develop innovative, life-saving technologies and services. That's what makes this recognition so impactful—it comes directly from our team and reflects their belief in what we're building and pride in the culture we've created."

This recognition is based on confidential team member feedback collected through a research-backed Energage survey, measuring key drivers of engagement, alignment, and organizational performance.

"Earning a USA TODAY Top Workplaces award reflects an organization's credibility and commitment to its people," said Eric Rubino, CEO of Energage. "Because it is based on team member feedback, it shows that people believe in the organization and its leadership. That trust is what sets companies apart."

About Energage

Making the world a better place to work together.™

Energage is a purpose-driven company that helps organizations turn employee feedback into useful business intelligence and credible employer recognition through Top Workplaces.
